A Savings Account

in the Farmers State Bank is the best thing in the world to have, for it will help you get every other thing desirable, and it makes you free from anxiety to know something is laid up for the future. In time, if you get the habit of saving, the money may grow into a beautiful home, or a remunerative business. Perhaps it will pay your boy's way through college, or take care of you in old age. The only bank in Ada which is allowed to come under the State Guaranty law and thus protect every dollar deposited is the

Farmers State Bank

PAVE MAIN STREET? NO.

Citizens Discuss Street Paving. More Against it Than for it. Resolutions

In response to the call through the 4th of July celebration and the the News for a meeting of business citizens by Chairman Lucas of the 25,000 club, a fair number of business citizens assembled at the rooms last evening, when there were discussed several propositions germane to the interests of Ada.

Col. Tom Hope, president of the Ada National bank, the principal promoter of the meeting, opened up the deliberations of the assembly with an even tenored but impassioned off-hand address in which he discussed the commercial condition now confronting this city. He referred in a manner to the past compliments of Ada, and then continued inspiring-ly of Ada's prospects provided there be a concerted, progressive action among Ada's citizens. Mr. Hope sent this fact home to the assembled citizens, all of whom were receiving his remarks with earnest attention. Said he, "Ada can reach no further in commercial achievement; there is no opportunity to reach beyond the class of numerous towns all through this section; unless there be at once progressive, concerted action among Ada's citizenship. 'Not only that,' said he, 'Ada cannot even hold her own. Towns in this country cannot stand still—they must either go forward or backward.' The spirit of progress is too militant throughout this country to admit of any commercial condition except forward or backward. It is a condition and not a theory that confronts the city of Ada. Unless we take advantage of our opportunities and assume the position in the commercial world to which we are entitled, there will presently be vacant houses on the main streets of this city.

When Mr. Hope had concluded, appreciation for his remarks was expressed through liberal applause. Chairman Lucas took occasion before the town progress discussion should wax warm, to call up the fact that the 25,000 club treasury was empty and that the citizens of the town proper were in debt something over a hundred dollars on account

of the machine foundry proposition had been satisfactorily given in hand to the committee, there was begun a discussion of the evening—street paving. Shall Main street of Ada be paved? There was a diversity of opinion. No one hesitated to speak his mind. The street paving discussion at times became a little rollicksome, more often vitriolic—sometimes the utterance of a speaker would take on such spirit and fervor that a man through the wall might suspicion the production of a tragedy or the anti-sanctification period before the Reformer's bench.

Hon. W. C. Duncan sounded the anti-paving key-note of the evening. After he gave the deluge of oratory and repartee voicing like sentiments.

The members of the council, all of whom are street paving boosters and enthusiasts, were on hand to hear several of the Main street heavy property owners send up the Macedonian cry. Mr. Duncan stated that he had opposed the street paving ordinance and exercised considerable activity against it becoming a law. He stated that he had written letters from New York to California and to Alabama and through Texas, calling on Ada property owners wherever he could find them, requesting that they protest against the street paving ordinance.

This popular ex-mayor of Ada spoke feelingly about the very heavy tax assessment on which a very substantial tax must soon be paid. "To bring on an addition taxation," said he, "which would be in street paving, would be no more nor less than confiscatory of the property."

Mr. Duncan, who is a member of the Ada school board, spoke of the necessity of first building more schools. When he mentioned schools, there was a happy response of approval around the room, for all could get on the progressive side of that proposition. Mr. Duncan indicated in his address that there multitudinous reasons why the streets should not be paved at the present time and his argument in large measure was favorably received by those present. He stated that until now a street grade in Ada had not been established, thereby unnecessarily delaying sidewalk construction, for which there was much greater necessity than street paving. He called attention to the alleged fact that it would be impractical to pave Main street previous to the installation of a sewerage system, and that he was in favor of sewerage first—in fact he thought a great deal might be accomplished should begin. Mr. Duncan notably in Ada before the street paving era made the anti-street paving argument

PRESS COMMENT.

Isadore Duncan who has been doing a barefoot dance in London, has been pretty generally condemned by the women folks, professional and otherwise. It's a cinch Isadore has pretty feet.—Armoreite.

The negro porter who stole \$8,500 from the National Bank of Commerce may be entitled to leniency. He bought a horse, a cow, a horse and a piano, instead of investing it in diamonds, fancy waistcoats, striped linen and tan shoes.—Kansas City Star.

There is an immense amount of satisfaction in a good sidewalk, both to the owner of the property and those who pass the place daily on their way to and from business. If you have not already done so, better arrange to have a sidewalk put in.—Holdenville Times.

H. E. P. Stanford was defeated for the republican nomination for congress despite the fact that he made a good record in the legislature. While in the legislature he did one thing that defeated him—he failed to vote against the Jim Crow law. All the negroes voted for Creager. There's room in a white man's party for "Hep" Stanford and he'd better come.—Visita Leader.

That Muskogee telephone girl who told the Muskogee lawyer to "keep your mouth shut, kicking won't do any good, the company will do just as it pleases," is now in the case of the parrot, as the man is taking the matter up vigorously with the city council. The moral of this tale is that a telephone girl should restrict her conversation to the usual, time-honored "Lines busy," and avoid trouble.—Oklahoman.

Baseball at Lehigh Tomorrow. N

The Ada Baseball team have made arrangements for a Sunday game with the Lehigh boys tomorrow and through the management of the Ada team arrangements have been made with the M. K. & T to run a special train, leaving Ada at 10 a. m., and arriving at Ada on the return at 7:35 p. m. A good game is expected since two of the best amateur teams of Oklahoma will be on the diamond.

Swickey and McCluckey will play their final game with the Ada boys and since they have served us well we should show them our appreciation by attending the game tomorrow. Rates will be low and a good crowd is expected.

NEGRO ASSAULTS WOMAN

Paris, Tex., Aug. 14.—The 19-year-old married daughter of Ward Williams, a prominent Choctaw living five miles northwest of Idabel, Ok., was criminally assaulted hte other morning by an unknown negro. The young woman was living with her father, and she and her baby were at home alone, the other members of the family having gone to church.

While she was sitting on the gallery the negro entered the yard and approached her. She tried to run away, but he seized an ax and overtook her and made her come back to the house. Inside the house she again attempted to escape, and in the struggle she got out in the yard, where she was overpowered. When the family returned home the alarm was given and officers have been searching for the negro. One was arrested and was taken before her, but she failed to identify him. The negro is supposed to have been working at a sawmill in the vicinity. The young woman says that the same negro appeared at the house about a week before he criminally assaulted her.

FUSION WINS IN NEBRASKA.

This Ought Surely Give That State to Bryan and Kern.

Lincoln, Neb., Aug. 14.—National Committeeman Victor Rosewater of the republican party was again defeated in his struggle to destroy fusion in Nebraska, Secretary of State George C. Junkin today ruling that Sophus Noble of the second congressional district may be entered on the primary ballot as a candidate for elector on the populist as well as on the democratic ticket.

The national committeeman protested on the ground that the populist party did not cast 1 per cent of the vote at the last election, as required by law to secure representation on the ballot. This protest has been overruled by the Secretary of State, and Noble will be classed as both democratic and populist on the ballot.

The protest against Noble is the last to be decided, fusion being permitted by the Secretary in the other protested cases.

Served as coffee, the new coffee substitute known to grocer's everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc., have been so cleverly blended as to give a wonderful satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 to 30 minutes boiling. R. S. Tobin.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes found in Rheumatic blood seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

OKLAHOMA CEMENT MANUFACTURE.

Ada Plant Turns out Best Product in the United States, Says a Well Informed Texas Business Citizen.

It will be gratifying to the people of this section, especially of Ada, to know that the Oklahoma Portland Cement Company of Ada, is rapidly achieving reputation throughout the broad southwest of manufacturing the best product of cement securable any where. The flattering results obtained by the capable officers of our home plant are traceable to quite a degree on account of the unexcelled shale and lime stone within their quarries, but more considerably on account of the expert and model manner of the machinery equipment and construction of the plant. The acceptance of the fact of such assertion is not based on any claim made by any interested party, indeed a prominent, well informed business citizen of Dallas, Texas, the home of the nearest competitor of Ada's big plant, made this statement the other night while engaged with other gentlemen in the lobby of the principal hotel of the Texas metropolis. It was gratifying to the editor of the News who was a participant in the little conversation in which this flattering compliment to our cement plant was uttered to witness such a boost for home.

Aside from the confidence in the relator's assertion that the Ada plant afford the finest cement, there is practical showing which would readily adduce such inclusion, for it is true that the Ada plant during the past eight months of most notable and distressing business depression, especially in all construction lines, has found a ready and grateful market for all its product. On the first day of January, the Oklahoma Portland shipped its first carload of cement. Since that time orders have come as rapidly as could be filled.

Suggestive of the vast good resulting to the country at large on account of this manufacture, in addition to the incalculable benefit derived to Ada, is the fact that since the establishment of the Ada plant, cement has been reduced nearly 100 per cent in price. It is said that the Oklahoma Portland Cement Company paid about \$2.50 per barrel for 5,000 barrels of cement used by it in constructing its plant, when now it is selling a superior quality of cement at, I believe, \$1.25 per barrel.

Dallas, Texas, considers its cement about the biggest factor in its development there around, yet the Texas plant has no greater equipment nor manufactures such superior product as does the Ada plant. Of course Ada is proud of its cement manufacture.

Young People's Party.

One of the most delightful socials of the season, was the young people's party this week at the residence of Mr. and Mrs. J. B. Ingram, at which a large number were present and who had a most enjoyable time.

Misses Elizabeth Ingram and Kathleen Smith were the young hostesses and they proved themselves most entertaining and charming in making the evening a pleasant one for their guests.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, dozing, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. Y. Littlefield, living on W. 16th St., Ada, Ok., says: "I procured Doan's Kidney Pills at G. M. Ramsey's drug store, and found most prompt and genuine relief from an aching through the small of my back that had caused me much misery for a long time. Doan's Kidney Pills not only relieved the distressing symptoms of kidney disorder, and corrected the too frequent action of the kidneys, but also caused the burning sensation that had accompanied the passages of the secretions to completely disappear. I am only too glad to recommend Doan's Kidney Pills to other sufferers of kidney complaint as they proved of more benefit to me than any remedy I had previously used."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ORGANIZE CAMPAIGN CLUBS

W. J. Bryan Thinks That this Thorough Organization will Bring Success.

Chicago, Ill., Aug. 14.—A call for the organization of Democratic clubs in every voting precinct of the United States to aid in Mr. Bryan's campaign was issued today by the Democratic National Committee. Mr. Bryan, it is understood, informed Chairman Mack and other members of the committee that he believed that the Democratic cause would derive its greatest impetus from the formation of these clubs throughout the country.

Asserting that the Republican party intends to rely on favor-seeking interests, the call for club organization says:

"All patriotic citizens, irrespective of party, who stand for the rule of the people and are against corrupt or undue influence of money in election and to that end favor publicity of the larger campaign contributions before he electon as demanded by the

Democratic platform are urged to organize themselves into campaign clubs for the presidential election.

"All organizations in sympathy with us are asked to assist actively in this work. The chairman of the Democratic State committee in each State is requested to have each county and precinct committeeman organize a campaign club in each precinct on or before the 15th day of September and to call meetings immediately for that purpose. All existing organizations would meet at once and appoint campaign committees.

"The names and addresses of all campaign organizations, their officers and committeeman should be sent to John W. Tomlinson, chairman of the committee on club organization, Democratic headquarters, Chicago, Ill., so that certificates of indorsement, literature, etc., may be sent. No special form of organization or by-laws is necessary."

JEFF STOUT ACQUITTED OF CHARGE OF MURDER

The examining trial of Jeff Stout consumed a good portion of Friday, and a number of witnesses were examined.

Chas. Porter a son of the deceased Joe Porter, testified that he and his father went by Stout's house to get some whiskey, and on their way to the ice cream supper they met Jeff Stout, but there was no quarrel. They stayed at the supper some time and returned to Stout's house. His father was at the window talking to Minnie Porter, wife of Ben Porter a brother of Joe. He stated that while they were talking he heard some one coming down the road, and he started toward the party approaching, and when he had gotten a few steps he heard his father say: "Jeff, I am shot." The witness then went to his father and caught hold of him whereupon the second shot was fired from the porch. This took effect in witness's hand. (He appeared on the witness stand with his arm in sling.) The witness ran and went around the house in the direction of the spring, and when he reached this point he heard another shot.

Witness stated that after the shooting, Jeff Stout told him that the reason he killed Joe Porter, was that he had heard that Joe had said that he was going to kill him (Jeff Stout) his wife and his children.

Sheriff Smith testified that Porter was shot in hand, arm, in the left side just above waist-band and under breast bone with a shot-gun and on the right side of stomach with either pistol or Winchester. He stated that Porter was lying with pistol in right hand loaded all round.

Other witnesses swore that Porter was drinking at the ice cream supper, and that he there made several threats against the lives of Stout and others, and also displayed a six-shooter.

After hearing all the evidence bearing on the case, Justice Brown held that in the killing of Porter by Jeff Stout, the offence was justifiable homicide, and therefore would be released.

SAVINGS BANKS AS ADJUNCTS

Guthrie, Ok., Aug. 14.—Among national bankers in Oklahoma the opinion prevails, that few if any of those that complied with the state guaranty law for the protection of depositors will refuse to obey the command of the comptroller of the currency to withdraw, under penalty of having their national charters abrogated for refusal. Fifty-seven national banks in the state are operating under the guaranty law. Most of these were encouraged to comply with the law that they might retain deposits of state funds more than they were by fear of a falling off in deposits by competition with state banks.

These national bankers are reluctant, however, to lose such advantages as the guaranty law gives them. A plan is contemplated whereby conflict with both the comptroller of the currency and the state banking board may be evaded, by using the state guaranty law as an adjunct to national banks. Such national banks as might wish to pursue this plan would apply for a state charter for a savings bank, which would be managed in conjunction with the national bank. Depositors could choose, in the same institution, between the national bank and the state savings bank.

A national banker said recently that he did not believe the plan would be prohibited either the comptroller of the currency or the state banking board, as each bank would be maintained separately from the other. He said that in several eastern state national banks were owners of state savings banks.

BETTER THAN SPANKING

Spanking does not cure children of bed wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubles with urine difficulties by day or night.

OPPOSE TAX ON HOMESTEADS

Kinta, Ok., Aug. 14.—In pursuance of the policy, outlined by the Indians of the Choctaw nation, in convention at Muskogee, July 15 and 16, that of resisting the national and state laws providing for the taxation of Indian homesteads, Principle Chief Green McCurtain has issued a proclamation calling upon each Choctaw citizen to donate \$5 toward a fund to be used by attorneys representing a suit against the state of Oklahoma, asking that the state be enjoined from collecting the homestead tax. The attorneys selected are Judge William H. H. Clayton and Judge C. B. Stuart of McAlester. In his proclamation Chief McCurtain says:

"It being the sense of the Muskogee meeting that exemption from taxation was a vested right under a contract with the United States government by which we decided to acquire title in severalty, and that once being vested with that right neither congress nor the legislature of the state can defeat it.

"Whereas, in accordance with a resolution unanimously adopted, it was decided that I, with a committee of two citizens whom I should name, proceed to contract with some attorneys, to the end that suit should be instituted against the state of Oklahoma enjoining it from collecting taxes on the lands of the citizens of these nations while the title remains in them, not to exceed twenty-one years, and realizing that the suit would be long drawn out and bitterly contested by the state, it was decided that in order that a sufficient sum be available for this purpose a contribution of \$5 apiece be had against the allotment of each allottee, and that I appoint one or more per-

PAVE MAIN STREET? NO.

(Continued from page 1.)

of the evening, though the Hon. W. G. Broadfoot and Col. John W. Beard were close seconds, the later gentlemen not speaking so long to the question, but in earnestness and oratory, if anything, excelling the talented ex-mayor.

Messrs. Broadfoot and Beard talked as they have a right to talk, being large property owners on Main street and men who have ever been active in the upbuilding of Ada. When Mr. Beard, in his address, had about reached his peroration in referring to the awful condition of the resident streets of Ada in comparison to paved business streets brought down the house by exclaiming, "In the name of somebody, what do you expect to accomplish with a prospector, taking him down a paved business street, only to break his neck by running off some of these death-gripping resident streets?"

Hon. Jno. Rinard, an old Ada booster, facetiously remarked, when called on to express himself in regard to street paving, that he really never had time to determine whether he would be against street paving under a full consideration of the proposition but the thing had come to him unawares and pending the time he could know what he was doing and just what the cost and results might be, he preferred to join the protesting crowd.

Mr. F. E. Bowman, manager of the Electric Light Plant, genial neighbor of the News, occupied a very diplomatic position in the discussion of the evening. All his remarks were facetious and were well received.

"Ward McAlester" Thornton, capitalist of northeast Broadway and Main, who always disdains to make a

IN THE HANDS OF A MOB

Illinois Capitol Citizens Wreak Vengeance on Negroes for Crime of One of Their Number.

Springfield, Ill., Aug. 14.—Springfield is in the hands of a mob of enraged citizens who began last night to wreak vengeance on negro residents for an assault committed yesterday by George Richardson, a negro, on Mrs. Hallam, a white woman.

At 1 o'clock this morning the whole east end of the town burst into flames, the torch having been applied to several negro houses by some of the more desperate mobbers. The fire companies were helpless to fight the blaze, as the rioters refused to allow the fire apparatus to approach the burning houses.

Outside troops have not yet arrived but are expected momentarily.

Two men are already dead and

probably two score others are injured, mostly negroes. The rabble is sweeping through the streets attacking every negro met. The local militia are on duty and half dozen companies from other cities are rushing here on special trains. Still other companies are ordered to hold themselves in readiness.

Negroes in various parts of town have been attacked by the mob and in two instances the negroes have turned with considerable effect upon their assailants.

George Richardson, the negro who assaulted Mrs. Hallam the wife of a street railway employe today at her home, was removed early in the evening to Bloomington.

TO TEACH MORALS IN PUBLIC SCHOOLS.

Distinctive efforts to be taken in the direction of moral training in the public schools were recommended at the recent annual meeting of the National Education Association in Cleveland. "The forward march of the teachers in this direction is quiet but it is determined," says the editor of the Chicago Interior, "and it is going to bring about the solution of this great problem." Their principle of action is stated by the writer in these words: "Today the teachers say that the next advance in the school life of the country must put conscience-training, decisively above mind-training." The association voicing this demand is described as "pre-eminently the organ of expression of the common-school teachers of the land," tho it has also "a considerable contingent of university and college men." The paragraphs of its resolution which touch this subject reads as follows:

"We earnestly recommend to boards of education, principals, and teachers the continuous training of pupils in morals and in business and professional ethics, to the end that the coming generation of men of affairs may have a well-developed abhorrence of unfair dealing and discrimination.

"The National Education Association wishes to record its approval of the increasing appreciation among educators of the fact that the building of character is the real aim of the schools.

"We hope for such a change of public sentiment as will permit and encourage the reading and study of the English Bible.

"The highest ethical standards of conduct and of speech should be insisted on among teachers."

The further comment of the Interior is in this vein:

"The outspoken declaration herein for the Bible is especially satisfactory. Many church people, apparently with a sort of fetish faith in the bare sound of the words, urge nothing more than a mere daily reading of the Scriptures in the schoolroom. The teachers, with the brighter light of experience to advise them, put no trust in a routine reading, but recognize that if the Bible is to do any good in the schoolroom it must be studied.

"The only uncertain sound in their declaration is the rather pessimistic allusion to the present state of public sentiment, which they tacitly concede to be against such use of the Bible as they would like to introduce into their work. But they should not misconstrue the quality of that feeling.

"It is not an essential opposition to the book itself. The majority of American parents would be personally most happy to have their children receive the sort of instruction from the Bible which the teachers would like to give. But there has been industriously disseminated through the country the idea that any use of the Christian Scriptures in the schools would infringe the rights of conscience of those who do not believe the Bible as a religious book. And the typical American father, wishing above all things to 'play fair,' will rather forego a desired benefit for his own children than to trench upon the liberty and rights of his neighbor.

"This forbearance is most admirable, but it is not altogether intelligent. The introduction of moral teaching into the public schools, with the Bible as at least one recognized

text-book thereof, would, if sincerely managed, not offend the proper principles of religious liberty in the slightest.

"Religion as a personal experience and a personal hope the state can have nothing to do with. But the social morality which covers justice and truth between man and man in the life here present and visible the state has not only the right, but a positive duty to inculcate.

"That the state is bound to uphold that morality through the wording, spirit, and execution of its laws nobody denies. The laws embody the state's ideals of citizenship. It is the simplest and most impregnable logic to hold that the state should not wait until those ideals are violated before bringing them directly to the attention of its citizens. What it intends to maintain as the standard of conduct necessary for a just social order in a stable commonwealth it should duly inform its citizens in advance of any commotion to break those standards."

Without controversy the place for the state to set forth its moral requirements ar as most deeply to impress the masses of its people in the common schoolroom, continues the writer, with these additional words:

"The state does not teach the wrong of a selfish and evil act primarily because it is a personal sin. The church must deal with that phase of human responsibility. The state's interest arises from the fact that wrong deeds disintegrate society, and right deeds consolidate, protect, and perpetuate society.

As a political organism government has no means of ascertaining that character of the Scriptures. But it is able to take cognizance of the great political fact written all over secular history—that nations which have observed the morality of the Scriptures have been strong nations of persisting vitality and steadfast orderliness.

"The right of the state to teach morals in the public schools, wholly or partly on the basis of Biblical ethics, is at the bottom of the right of self-preservation, because moral nations live.

"Each state ought by statute to define its own right to instruct its public school children in the fundamentals of social morality.

"Any court in the land would uphold such a law. It would not be vulnerable to any charge of infringing religious liberty, because it would plainly stop short of touching religion—it would be limited strictly to the state's own undeniable self-interest. That one great sentence in the ordinance of 1787 would alone be almost sufficient legal authority for it:

"Religion, morality, and knowledge being necessary for good government, schools and the means of education shall be forever maintained."—Selected.

Wood's Liver Medicine is for the relief of malaria, chills and fever and all ailments resulting from deranged condition of the liver, kidneys and bladder. Wood's Liver Medicine is a tonic to the liver and bowels, relieves sick headache, constipation, stomach, kidney and liver disorders and acts as a gentle laxative. It is the ideal remedy for fatigue and weakness. It's tonic effects on the entire system felt with the first dose. The \$1.00 size contains nearly 2 1-2 times the quantity of the 50c size. In liquid form. Pleasant to take. Sold by Gwin-May & Co.

Citizens Discuss Street Paving. More Against it Than for it. Resolutions

In response to the call through the News for a meeting of business citizens by Chairman Lucas of the 25,000 club a fair number of business citizens assembled at the rooms last evening when there were discussed several propositions germane to the interests of Ada.

Col Tom Hope president of the Ada National bank the principal promoter of the meeting opened up the deliberations of the assembly with an even tenored but impassioned off-hand address in which he discussed the commercial condition now confronting this city. He referred in a manner to the past compliments of Ada and then continued inspiring by of Ada's prospects provided there be a concerted, progressive action among Ada's citizens. Mr Hope sent this fact home to the assembled citizens all of whom were receiving his remarks with earnest attention. Said Mr Hope: "Ada can teach no further in commercial achievement, there is no opportunity to reach beyond the class of numerous towns all through this section unless there be at once progressive concerted action among Ada's citizenship. Not only that, but Ada cannot even hold her own towns in this country cannot stand still—they must either go forward or backward. The spirit of progress is too militant throughout this country to admit of any commercial condition except forward or backward. It is a condition and not a theory that confronts the city of Ada. Unless we take advantage of our opportunities and assume the position in the commercial world to which we are entitled there will presently be vacant houses on the main streets of this city."

When Mr Hope had concluded appreciation for his remarks was expressed through liberal applause. Chairman Lucas took occasion before the town progress discussion should wax warm to call up the fact that the 25,000 club treasury was empty and that the citizens of the town proper were in debt something over a hundred dollars on account

of the 4th of July celebration and the confederate reunion lately held in Ada. It was the unanimous verdict that this deficit should be raised at once and Chairman Lucas consented that he be named together with Charlie Rives vice-president of the First National Bank as a committee to committee to raise the necessary money.

Mr M. W. Jones of Ardmore, made a proposition before the citizens to install a large machine foundry in Ada. It appeared that he impressed all who heard his remarks very favorably. He came well recommended as was attested by flattering endorsements which were examined and reported on by the secretary. Mr Jones proposition includes the organization of a \$10,000 stock company or which \$3,000.00 in stock shall be raised among the Ada citizens. A committee composed of Claude R. Leonard W. H. Nettles and Walter Leonard were selected to examine into the general merits of Mr Jones proposition and to make report of their findings at the earliest convenient time.

When the machine foundry proposition had been satisfactorily given in hand to the committee there was begun a discussion of the evening—street paving. Shall Main Street of Ada be paved? There was a diversity of opinion. No one hesitated to speak his mind. The street paving discussion at times became a little rollicksome more often vitriolic—sometimes the utterance of a speaker would take on such spirit and fervor that a man though the wall might suspicion a production of a baggy or the unsanctification period before the main's lunch.

Hon W. C. Duncan southerly anti-paving. A note of the evening. After he gave the deluge of oratory and repeated voicing like sentiments.

The members of the council all of whom are street paving boosters and enthusiasts were on hand to hear several of the Main street heavy property owners send up the Macedonian cry.

Mr Duncan stated that he had opposed the street paving ordinance and exercised considerable activity against it becoming a law. He stated that he had written letters from New York to California and to Alabama and through Texas ending on Ada property owners wherever he could find them requesting that they protest against the street paving ordinance.

This popular ex-mayor of Ada spoke feelingly about the very heavy tax assessment on which a very substantial tax must soon be paid. To bring on an addition taxation said he which would be in street paving would be no more nor less than confiscatory of the property.

Mr Duncan who is a member of the Ada school board spoke of the necessity of first building more schools. When he mentioned schools there was a happy response of approval around the room for all could get on the progressive side of that proposition. Mr Duncan indicated in his address that there multitudinous reasons why the streets should not be paved at the present time and his argument in large measure was favorably received by those present. He stated that until now a street grade in Ada had not been established, thereby unnecessarily delaying sidewalk construction for which there was much greater necessity than street paving. He called attention to the alleged fact that it would be impractical to pave Main street previous to the installation of a sewerage system and that he was in favor of sewerage first—in fact he thought a great deal might be accomplished should begin. Mr Duncan notably in Ada before the street paving era made the anti-street paving argument.

PEERS COMMENT.

Isadore Ducan who has been doing a barefoot dance in London, has been pretty generally condemned by the women folks, professional and otherwise. It is a cinch Isadore has pretty feet.—Armoreite

The negro porter who stole \$3,500 from the National Bank of Commerce may be entitled to leniency. He bought a horse, a cow, a horse and a piano. Instead of investing it in diamonds, fancy waistcoats, striped linen and tan shoes.—Kansas City Star.

There is an immense amount of satisfaction in a good sidewalk, both to the owner of the property and those who pass the place daily on their way to and from business. If you have not already done so, better arrange to have a sidewalk put in.—Holdenville Times.

H. E. P. Stanford was defeated for the republican nomination for congress despite the fact that he made a good record in the legislature. While in the legislature he did one thing that defeated him—he failed to vote against the Jim Crow law. All the negroes voted for Creager. There's room in a white man's party for "Hep" Stanford and he'd better come.—Vinita Leader.

That Muskogee telephone girl who told the Muskogee lawyer to "keep your mouth shut, kicking won't do any good, the company will do just as it pleases," is now in the case of the parrot, as the man is taking the matter up vigorously with the city council. The moral of this tale is that a telephone girl should restrict her conversation to the usual, time-honored "lines busy," and avoid trouble.—Oklaboman.

Baseball at Lehigh Tomorrow. N. The Ada Baseball team have made arrangements for a Sunday game with the Lehigh boys tomorrow and through the management of the Ada team arrangements have been made with the M. K. & T to run a special train, leaving Ada at 10 a. m., and arriving at Ada on the return at 7:25 p. m. A good game is expected since two of the best amateur teams of Oklahoma will be on the diamond.

Swickey and McCluekey will play their final game with the Ada boys and since they have served us well we should show them our appreciation by attending the game tomorrow. Rates will be low and a good crowd is expected.

NEGRO ASSAULTS WOMAN

Paris, Tex., Aug. 14.—The 19-year-old married daughter of Ward Williams, a prominent Choctaw living five miles northwest of Idabel, Ok., was criminally assaulted late other morning by an unknown negro. The young woman was living with her father, and she and her baby were at home alone, the other members of the family having gone to church. While she was sitting on the gallery the negro entered the yard and approached her. She tried to run away, but he seized an ax and overtook her and made her come back to the house. Inside the house she again attempted to escape, and in the struggle she got out in the yard, where she was overpowered. When the family returned home the alarm was given and officers have been searching for the negro. One was arrested and was taken before her, but she failed to identify him. The negro is supposed to have been working at a sawmill in the vicinity. The young woman says that the same negro appeared at the house about a week before he criminally assaulted her.

FUSION WINS IN NEBRASKA.

This Ought Surely Give That State to Bryan and Kern.

Lincoln, Neb., Aug. 14.—National Committeeman Victor Rosewater of the republican party was again defeated in his struggle to destroy fusion in Nebraska. Secretary of State George C. Junkin today ruling that Sophus Noble of the second congressional district may be entered on the primary ballot as a candidate for elector on the populist as well as on the democratic ticket.

The national committeeman protested on the ground that the populist party did not cast 1 per cent of the vote at the last election, as required by law to secure representation on the ballot. This protest has been overruled by the Secretary of State, and Noble will be classed as both democratic and populist on the ballot.

The protest against Noble is the last to be decided, fusion being permitted by the Secretary in the other protested cases.

Served as coffee, the new coffee substitute known to grocer's everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, oats, etc., have been so cleverly blended as to give a wonderful satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 to 30 minutes boiling. R. S. Tobin.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, as last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatism, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy
G. M. RAMSEY.

OKLAHOMA CEMENT MANUFACTURE.

Ada Plant Turns out Best Product in the United States, Says a Well Informed Texas Business Citizen.

It will be gratifying to the people of this section, especially of Ada, to know that the Oklahoma Portland Cement Company of Ada, is rapidly achieving reputation throughout the broad southwest of manufacturing the best product of cement conceivable anywhere. The flattering results obtained by the capable officers of our home plant are traceable to quite a degree on account of the unexcelled shale and lime stone within their quarries, but more considerably on account of the expert and model manner of the machinery equipment and construction of the plant. The acceptance of the fact of such assertion is not based on any claim made by any interested party. Indeed a prominent, well informed business citizen of Dallas, Texas, the home of the nearest competitor of Ada's big plant, made this statement the other night while engaged with other gentlemen in the lobby of the principal hotel of the Texas metropolis. It was gratifying to the editor of the News who was a participant in the little conversation in which this flattering compliment to our cement plant was uttered to witness such a boost for home.

Aside from the confidence in the relation's assertion that the Ada plant afford the finest cement, there is practical showing which would readily induce such inclusion, for it is true that the Ada plant during the past eight months of most notable and distressing business depression, especially in all construction lines, has found a ready and grateful market for all its product. On the first day of January, the Oklahoma Portland shipped its first carload of cement. Since that time orders have come as rapidly as could be filled.

Suggestive of the vast good resulting to the country at large on account of this manufacture, in addition to the incalculable benefit derived to Ada, is the fact that since the establishment of the Ada plant, cement has been reduced nearly 100 per cent in price. It is said that the Oklahoma Portland Cement Company paid about \$2.50 per barrel for 5,000 barrels of cement used by it in constructing its plant, when now it is selling a superior quality of cement at, I believe, \$1.25 per barrel.

Dallas, Texas, considers its cement about the biggest factor in its development there around, yet the Texas plant has no greater equipment nor manufactures such superior product as does the Ada plant. Of course Ada is proud of its cement manufacture.

Young People's Party.

One of the most delightful socials of the season, was the young people's party this week at the residence of Mr. and Mrs. J. B. Ingram, at which a large number were present and who had a most enjoyable time.

Misses Elizabeth Ingram and Kathleen Smith were the young hostesses and they proved themselves most entertaining and charming in making the evening a pleasant one for their guests.

ORGANIZE CAMPAIGN CLUBS

OPPOSE TAX ON HOMESTEADS

PAVE MAIN STREET? NO.

(Continued from page 1.)

IN THE HANDS OF A MOB

W. J. Bryan Thinks That this Thorough Organization will Bring Success.

Chicago, Ill., Aug. 14.—A call for the organization of Democratic clubs in every voting precinct of the United States to aid in Mr. Bryan's campaign was issued today by the Democratic National Committee. Mr. Bryan, it is understood, informed Chairman Mack and other members of the committee that he believed that the Democratic cause would derive its greatest impetus from the formation of these clubs throughout the country.

Asserting that the Republican party intends to rely on favor-seeking interests, the call for club organization says:

"All patriotic citizens, irrespective of party, who stand for the rule of the people and are against corrupt or undue influence of money in election and to that end favor publicity of the larger campaign contributions before he election as demanded by the

Democratic platform are urged to organize themselves into campaign clubs for the presidential election.

"All organizations in sympathy with us are asked to assist actively in this work. The chairman of the Democratic State committee in each State is requested to have each county and precinct committeeman organize a campaign club in each precinct on or before the 15th day of September and to call meetings immediately for that purpose. All existing organizations would meet at once and appoint campaign committees.

"The names and addresses of all campaign organizations, their officers and committeemen should be sent to John W. Tomlinson, chairman of the committee on club organization, Democratic headquarters, Chicago, Ill., so that certificates of indorsement, literature, etc., may be sent. No special form of organization or by-laws is necessary."

Kinta, Ok., Aug. 14.—In pursuance of the policy, outlined by the Indians of the Choctaw nation, in convention at Tuskahome, July 15 and 16, that of resisting the national and state laws providing for the taxation of Indian homesteads, Principle Chief Green McCurtain has issued a proclamation calling upon each Choctaw citizen to donate \$5 toward a fund to be used by attorneys representing a suit against the state of Oklahoma, asking that the state be enjoined from collecting the homestead tax. The attorneys selected are Judge William H. H. Clayton and Judge C. B. Stuart of McAlester. In his proclamation Chief McCurtain says:

"It being the sense of the Tuskahome meeting that exemption from taxation was a vested right under a contract with the United States government by which we decided to acquire title in severalty, and that once being vested with that right neither congress nor the legislature of the state can defeat it.

"Whereas, in accordance with a resolution unanimously adopted, it was decided that I, with a committee of two citizens whom I should name, proceed to contract with some attorneys, to the end that suit should be instituted against the state of Oklahoma enjoining it from collecting taxes on the lands of the citizens of these nations while the title remains in them, not to exceed twenty-one years, and realizing that the suit would be long drawn out and bitterly contested by the state, it was decided that in order that a sufficient sum be available for this purpose a contribution of \$5 apiece be had against the allotment of each allottee, and that I appoint one or more per-

of the evening, though the Hon. W. G. Broadfoot and Col. John W. Beard were close seconds, the later gentlemen not speaking so long to the question, but in earnestness and oratory, if anything, excelling the talented ex-mayor.

Messrs. Broadfoot and Beard talked as they have a right to talk, being large property owners on Main street and men who have ever been active in the upbuilding of Ada. When Mr. Beard, in his address, had about reached his peroration in referring to the awful condition of the resident streets of Ada in comparison to paved business streets brought down the house by exclaiming, "In the name of somebody, what do you expect to accomplish with a prospector, taking him down a paved business street, only to break his neck by running off some of these death-gripping resident streets?"

Hon. Jno. Rindard, an old Ada booster, facetiously remarked, when called on to express himself in regard to street paving, that he really never had time to determine whether he would be against street paving under a full consideration of the proposition but the thing had come to him unawares and pending the time he could know what he was doing and just what the cost and results might be, he preferred to join the protesting crowd.

Mr. F. E. Bownman, manager of the Electric Light Plant, genial neighbor of the News, occupied a very diplomatic position in the discussion of the evening. All his remarks were facetious and were well received.

"Ward McAlester" Thornton, capitalist of northeast Broadway and Main, who always disdains to make a

Illinois Capitol Citizens Wreak Vengeance on Negroes for Crime of One of Their Number.

Springfield, Ill., Aug. 14.—Springfield is in the hands of a mob of enraged citizens who began last night to wreak vengeance on negro residents for an assault committed yesterday by George Richardson, a negro, on Mrs. Hallam, a white woman.

At 1 o'clock this morning the whole east end of the town burst into flames, the torch having been applied to several negro houses by some of the more desperate mobbers.

The fire companies were helpless to fight the blaze, as the rioters refused to allow the fire apparatus to approach the burning houses.

Outside troops have not yet arrived but are expected momentarily.

Two men are already dead and

probably two score others are injured, mostly negroes. The rabble is sweeping through the streets attacking every negro met. The local militia are on duty and half dozen companies from other cities are rushing here on special trains. Still other companies are ordered to hold themselves in readiness.

Negroes in various parts of town have been attacked by the mob and in two instances the negroes have turned with considerable effect upon their assailants.

George Richardson, the negro who assaulted Mrs. Hallam the wife of a street railway employe today at her home, was removed early in the evening to Bloomington.

JEFF STOUT ACQUITTED OF CHARGE OF MURDER

The examining trial of Jeff Stout consumed a good portion of Friday, and a number of witnesses were examined.

Chas. Porter a son of the deceased Joe Porter, testified that he and his father went by Stout's house to get some whiskey, and on their way to the ice cream supper they met Jeff Stout, but there was no quarrel. They stayed at the supper some time and returned to Stout's house. His father was at the window talking to Minnie Porter, wife of Ben Porter a brother of Joe. He stated that while they were talking he heard some one coming down the road, and he started toward the party approaching, and when he had gotten a few steps he heard his father say: "Jeff, I am shot." The witness then went to his father and caught hold of him whereupon the second shot was fired from the porch. This took effect in witness's hand. (He appeared on the witness stand with his arm in sling.) The witness ran and went around the house in the direction of the spring, and when he reached this point he heard another shot.

Witness stated that after the shooting, Jeff Stout told him that the reason he killed Joe Porter, was that he had heard that Joe had said that he was going to kill him (Jeff Stout) his wife and his children.

Sheriff Smith testified that Porter was shot in hand, arm, in the left side just above waist-band and under breast bone with a shot-gun and on the right side of stomach with either pistol or Winchester. He stated that Porter was lying with pistol in right hand loaded all round.

Other witnesses swore that Porter was drinking at the ice cream supper, and that he there made several threats against the lives of Stout and others, and also displayed a six-shooter.

After hearing all the evidence bearing on the case, Justice Brown held that in the killing of Porter by Jeff Stout, the offence was justifiable homicide, and therefore would be released.

SAVINGS BANKS AS ADJUNCTS

Guthrie, Ok., Aug. 14.—Among national bankers in Oklahoma the opinion prevails, that few if any of those that complied with the state guaranty law for the protection of depositors will refuse to obey the command of the comptroller of the currency to withdraw, under penalty of having their national charters abrogated for refusal. Fifty-seven national banks in the state are operating under the guaranty law. Most of these were encouraged to comply with the law that they might retain deposits of state funds more than they were by fear of a falling off in deposits by competition with state banks.

These national bankers are reluctant, however, to lose such advantages as the guaranty law gives them. A plan is contemplated whereby conflict with both the comptroller of the currency and the state banking board may be evaded, by using the state guaranty law as an adjunct to national banks. Such national banks as might wish to pursue this plan would apply for a state charter for a savings bank, which would be managed in conjunction with the national bank. Depositors could choose, in the same institution, between the national bank and the state savings bank.

A national banker said recently that he did not believe the plan would be prohibited either the comptroller of the currency or the state banking board, as each bank would be maintained separately from the other. He said that in several eastern state national banks were owners of state savings banks.

BETTER THAN SPANKING

Spanking does not cure children of bad wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubles with urine difficulties by day or night.

WILLIAM J. BRYAN, JR.

MRS. WILLIAM J. BRYAN.

sions in each county to solicit and collect the same. It is our intention, to test this matter through all the courts if necessary, and we feel assured of ultimate success, and to that end we solicit the hearty cooperation of our citizens."

Weak women should read my "Book No. 4 for Women." It tells of Dr. Shoop's Night Cure. Tells how these soothing, healing, antiseptic supporters, bring quick and certain help. The book is free. Address Dr. Shoop, Racine, Wis. G. M. Ramsey.

August time, tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The pain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the "inside nerves" then the stomach, heart, and kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by G. M. Ramsey.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. Its not disposition, its the liver. If your find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbina and put your liver in shape. You and everybody around you will feel better for it. Price 50c per bottle. Sold by G. M. Ramsey.

HURRAH! HURRAH!!

Three big ball games—Monday, Tuesday and Wednesday—Ada vs. the Sherman Athletics, who are the champions of north Texas. Remember the time.

speech, gave vent to some very pertinent expressions from his viewpoint, in the nature of repartee during the various discussions.

Col. J. W. Hays stated that he has remonstrated against the street paving ordinance, not on account of his personal objection to pave, but he thought property owners should be allowed to determine the measure of their taxation of such nature.

W. L. Reed, the banker orator, after publicly attaching himself to the anti-paving contingent, went off into an eloquent exposition of Ada's school requirements. Said he: "If we have to sell 7 per cent bonds even, I am in favor of investing in up-to-date school buildings sufficient to take care of the school interests of this town.

After some other more or less desultory remarks pro and con on street paving, the following resolution by Jno. W. Beard prevailed:

"Be it resolved, that it is the sense of this meeting that the city council of Ada be recommended immediately to take necessary steps to create a bond issue for the town of Ada sufficient to construct a sewerage system and erect sufficient additional school properties to accommodate the growing needs of this city, and it is further agreed, that it is the sense of this meeting that this city, in its program of public improvements should first establish street grades, construct a sewerage system, build school houses, construct sidewalks and then pave the business streets of Ada."

The resolutions as offered by Mr. Beard, appeared to be unanimously carried.

A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25c a bottle. Sold by G. M. Ramsey.

TO TEACH MORALS IN PUBLIC SCHOOLS.

Distinctive efforts to be taken in the direction of moral training in the public schools were recommended at the recent annual meeting of the National Education Association in Cleveland. "The forward march of the teachers in this direction is quiet but it is determined," says the editor of the Chicago Interior, "and it is going to bring about the solution of this great problem." Their principle of action is stated by the writer in these words: "Today the teachers say that the next advance in the school life of the country must put conscience-training, decisively above mind-training." The association voting this demand is described as "pre-eminently the organ of expression of the common-school teachers of the land," tho it has also "a considerable contingent of university and college men." The paragraphs of its resolution which touch this subject reads as follows.

We earnestly recommend to boards of education, principals, and teachers the continuous training of pupils in morals and in business and professional ethics, to the end that the coming generation of men of affairs may have a well-developed abhorrence of unfair dealing and discrimination.

"The National Education Association wishes to record its approval of the increasing appreciation among educators of the fact that the inculcating of character is the real aim of the schools.

"We hope for such a change of public sentiment as will permit and encourage the reading and study of the English Bible.

"The highest ethical standards of conduct and of speech should be insisted on among teachers."

The further comment of the Interior is in this vein:

"The outspoken declaration herein for the Bible is especially satisfactory. Many church people, apparently with a sort of fetish faith in the bare sound of the words, urge nothing more than a mere daily reading of the Scriptures in the schoolroom. The teachers, with the brighter light of experience to advise them, put no trust in a routine reading, but recognize that if the Bible is to do any good in the schoolroom it must be studied.

"The only uncertain sound in their declaration is the rather pessimistic allusion to the present state of public sentiment, which they tacitly concede to be against such use of the Bible as they would like to introduce into their work. But they should not misconstrue the quality of that feeling.

"It is not an essential opposition to the book itself. The majority of American parents would be personally most happy to have their children receive the sort of instruction from the Bible which the teachers would like to give. But there has been industriously disseminated through the country the idea that any use of the Christian Scriptures in the schools would infringe the rights of conscience of those who do not believe the Bible as a religious book. And the typical American father, wishing above all things to 'play fair,' will rather forego a desired benefit for his own children than to trench upon the liberty and rights of his neighbor.

"This forbearance is most admirable, but it is not altogether intelligent. The introduction of moral teaching into the public schools, with the Bible as at least one recognized

text-book thereof, would, if sincerely managed, not offend the proper principles of religious liberty in the slightest.

"Religion as a personal experience and a personal hope the state can have nothing to do with. But the social morality which covers justice and truth between man and man in the life here present and visible the state has not only the right, but a positive duty to inculcate.

"That the state is bound to uphold that morality through the wording, spirit, and execution of its laws nobody denies. The laws embody the state's ideals of citizenship. It is the simplest and most impregnable logic to hold that the state should not wait until those ideals are violated before bringing them directly to the attention of its citizens. What it intends to maintain as the standard of conduct necessary for a just social order in a stable commonwealth it should duly inform its citizens in advance of any common-law to break those standards."

Without controversy the place for the state to set forth its moral requirements as most deeply to impress the masses of its people in the common schoolroom, continues the writer with these additional words.

"The state does not teach the wrong of a selfish and evil act primarily because it is a personal sin. The church must deal with that phase of human responsibility. The state's interest arises from the fact that wrong deeds disintegrate society, and right deeds consolidate, protect, and perpetuate society.

As a political organism government has no means of ascertaining that character of the Scriptures. But it is able to take cognizance of the great political fact written all over secular history—that nations which have observed the morality of the Scriptures have been strong nations of persisting vitality and steadfast orderliness.

"The right of the state to teach morals in the public schools, wholly or partly on the basis of Biblical ethics, is at the bottom of the right of self-preservation, because moral nations live.

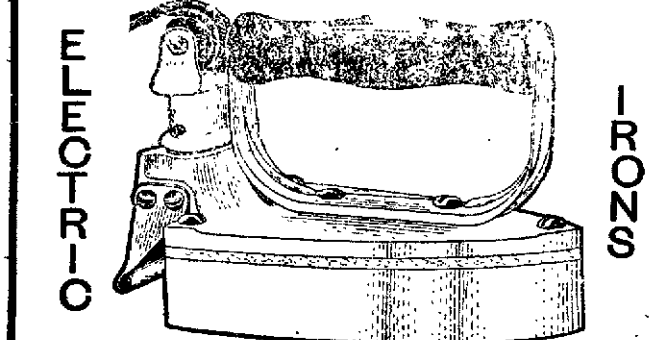

"Each state ought by statute to define its own right to instruct its public school children in the fundamentals of social morality.

"Any court in the land would uphold such a law. It would not be vulnerable to any charge of infringing religious liberty, because it would plainly stop short of touching religion—it would be limited strictly to the state's own undeniable self-interest. That one great sentence in the ordinance of 1787 would alone be almost sufficient legal authority for it:

"Religion, morality, and knowledge being necessary for good government, schools and the means of education shall be forever maintained."—Selected.

Wood's Liver Medicine is for the relief of malaria, chills and fever and all ailments resulting from deranged condition of the liver, kidneys and bladder. Wood's Liver Medicine is a tonic to the liver and bowels, relieves sick headache, constipation, stomach, kidney and liver disorders and acts as a gentle laxative. A Savings Account

in the Farmers State Bank is the best thing in the world to have, for it will help you get every other thing desirable, and it makes you free from anxiety to know something is laid up for the future. In time, if you get the habit of saving, the money may grow into a beautiful home, or a remunerative business. Perhaps it will pay your boy's way through college, or take care of you in old age. The only bank in Ada which is allowed to come under the State Guaranty law and thus protect every dollar deposited is the

Farmers State Bank

PAVE MAIN STREET? NO.

Citizens Discuss Street Paving. More Against it Than for it. Resolutions

In response to the call through the News for a meeting of business citizens by Chairman Lucas of the 25,000 club, a fair number of business citizens assembled at the rooms last evening, when there were discussed several propositions germane to the interests of Ada.

Col. Tom Hope, president of the Ada National bank, the principal promoter of the meeting, opened up the deliberations of the assembly with an even tenored but impassioned off-hand address in which he discussed the commercial condition now confronting this city. He referred in a manner to the past compliments of Ada, and then continued inspiring ly of Ada's prospects provided there be a concerted, progressive action among Ada's citizens. Mr. Hope sent this fact home to the assembled citizens, all of whom were receiving his remarks with earnest attention. Said he, "Ada can reach no further in commercial achievement; there is no opportunity to reach beyond the class of numerous towns all through this section; unless there be at once progressive, concerted action among Ada's citizenship. 'Not only that,' said he, 'Ada cannot even hold her own. Towns in this country cannot stand still—they must either go forward or backward.' The spirit of progress is too militant throughout this country to admit of any commercial condition except forward or backward. It is a condition and not a theory that confronts the city of Ada. Unless we take advantage of our opportunities and assume the position in the commercial world to which we are entitled, there will presently be vacant houses on the main streets of this city."

When Mr. Hope had concluded, appreciation for his remarks was expressed through liberal applause. Chairman Lucas took occasion before the town progress discussion should wax warm, to call up the fact that the 25,000 club treasury was empty and that the citizens of the town proper were in debt something over a hundred dollars on account

of the 4th of July celebration and the confederate reunion lately held in Ada. It was the unanimous verdict that this deficit should be raised at once and Chairman Lucas consented that he be named, together with Charlie Rives, vice-president of the First National Bank as a committee to committee to raise the necessary money.

Mr. M. W. Jones of Ardmore, made a proposition before the citizens to install a large machine foundry in Ada. It appeared that he impressed all who heard his remarks very favorably. He came well recommended as was attested by flattering endorsements which were examined and reported on by the secretary. Mr. Jones' proposition includes the organization of a \$10,000 stock company of which \$3,000.00 in stock shall be raised among the Ada citizens. A committee composed of Claude Rodamei, W. H. Nettles and Walter Leonard were selected to examine into the general merits of Mr. Jones' proposition and to make report of their finding at the earliest convenience.

When the machine foundry proposition had been satisfactorily given in hand to the committee, there was begun a discussion of the evening—street paving. Shall Main street of Ada be paved? There was a diversity of opinion. No one hesitated to speak his mind. The street paving discussion at times became a little rollicksome, more often vitriolic—sometimes the utterance of a speaker would take on such spirit and fervor that a man through the wall might suspicion a production of a tragedy or the anti-saccharification period before the barber's bench.

Hon. W. C. Duncan sounded the anti-paving key-note of the evening. After he gave the deluge of oratory and repeated voicing like sentiments. The members of the council, all of whom are street paving boosters and enthusiasts, were on hand to hear several of the Main street heavy property owners send up the Macedonian cry. Mr. Duncan stated that he had opposed the street paving ordinance and exercised considerable activity against it becoming law. He stated that he had written letters from New York to California and to Alabama and through Texas, calling on Ada property owners wherever he could find them, requesting that they protest against the street paving ordinance.

This popular ex-mayor of Ada spoke feelingly about the very heavy tax assessment on which a very substantial tax must soon be paid. "To bring on an addition taxation," said he, "which would be in street paving, would be no more nor less than confiscatory of the property."

Mr. Duncan, who is a member of the Ada school board, spoke of the necessity of first building more schools. When he mentioned schools, there was a happy response of approval around the room, for all could get on the progressive side of that proposition. Mr. Duncan indicated in his address that there multitudinous reasons why the streets should not be paved at the present time and his argument in large measure was favorably received by those present. He stated that until now a street grade in Ada had not been established, thereby unnecessarily delaying sidewalk construction, for which there was much greater necessity than street paving. He called attention to the alleged fact that it would be impractical to pave Main street previous to the installation of a sewerage system, and that he was in favor of sewerage first—in fact he thought a great deal might be accomplished should begin. Mr. Duncan notably in Ada before the street paving era made the anti-street paving argument

PIERCE COMMENT.

Isadore Duncan who has been doing a barefoot dance in London, has been pretty generally condemned by the women folks, professional and otherwise. He, a cinch Isadore has pretty feet.—A. Inorite

The negro porter who stole \$3,500 from the National Bank of Commerce may be entitled to leniency. He bought a home, a cow, a horse and a piano. Instead of investing it in diamonds, fancy waistcoats, striped linen and tan shoes.—Kansas City Star.

There is an immense amount of satisfaction in a good sidewalk, both to the owner of the property and those who pass the place daily on their way to and from business. If you have not already done so, better arrange to have a sidewalk put in.—Holdenville Times.

H. E. P. Stanford was defeated for the republican nomination for congress despite the fact that he made a good record in the legislature. While in the legislature he did one thing that defeated him—he failed to vote against the Jim Crow law. All the negroes voted for Creager. There's room in a white man's party for "Heep" Stanford and he'd better come.—Visits Leader.

That Muskogee telephone girl who told the Muskogee lawyer to "keep your mouth shut, kicking won't do any good, the company will do just as it pleases," is now in the case of the parrot, as the man is taking the matter up vigorously with the city council. The moral of this tale is that a telephone girl should restrict her conversation to the usual, time-honored "Lines busy," and avoid trouble.—Oklahoman.

Baseball at Lehigh Tomorrow. N The Ada Baseball team have made arrangements for a Sunday game with the Lehigh boys tomorrow and through the management of the Ada team arrangements have been made with the M. K. & T to run a special train, leaving Ada at 10 a. m., and arriving at Ada on the return at 7:35 p. m. A good game is expected since two of the best amateur teams of Oklahoma will be on the diamond.

Swickey and McCluckey will play their final game with the Ada boys and since they have served us well we should show them our appreciation by attending the game tomorrow. Rates will be low and a good crowd is expected.

NEGRO ASSAULTS WOMAN

Paris, Tex., Aug. 14.—The 19-year-old married daughter of Ward Williams, a prominent Choctaw living five miles northwest of Idabel, Ok., was criminally assaulted late other morning by an unknown negro. The young woman was living with her father, and she and her baby were at home alone, the other members of the family having gone to church.

While she was sitting on the gallery the negro entered the yard and approached her. She tried to run away, but he seized an ax and overtook her and made her come back to the house. Inside the house she again attempted to escape, and in the struggle she got out in the yard, where she was overpowered. When the family returned home the alarm was given and officers have been searching for the negro. One was arrested and was taken before her, but she failed to identify him. The negro is supposed to have been working at a sawmill in the vicinity. The young woman says that the same negro appeared at the house about a week before he criminally assaulted her.

FUSION WINS IN NEBRASKA.

This Ought Surely Give That State to Bryan and Kern.

Lincoln, Neb., Aug. 14.—National Committeeman Victor Rosewater of the republican party was again defeated in his struggle to destroy fusion in Nebraska. Secretary of State George C. Junkin today ruling that Sophus Noble of the second congressional district may be entered on the primary ballot as a candidate for elector on the populist as well as on the democratic ticket.

The national committeeman protested on the ground that the populist party did not cast 1 per cent of the vote at the last election, as required by law to secure representation on the ballot. This protest has been overruled by the Secretary of State, and Noble will be classed as both democratic and populist on the ballot.

The protest against Noble is the last to be decided, fusion being permitted by the Secretary in the other protested cases.

Served as coffee, the new coffee substitute known to grocer's everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful toasted grains, malt, nuts, etc. have been so cleverly blended as to give a wonderful satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 to 30 minutes boiling. R. S. Tobin.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without this last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with old pains. We sell, and in confidence recommend.

Dr. Shoop's Rheumatic Remedy
G. M. RAMSEY.

OKLAHOMA CEMENT MANUFACTURE.

Ada Plant Turns out Best Product in the United States, Says a Well Informed Texas Business Citizen.

It will be gratifying to the people of this section, especially of Ada, to know that the Oklahoma Portland Cement Company of Ada, is rapidly achieving reputation throughout the broad southwest of manufacturing the best product of cement procurable anywhere. The flattering results obtained by the capable officers of our home plant are traceable to quite a degree on account of the unexcelled shale and lime stone within their quarries, but more considerably on account of the expert and model manner of the machinery equipment and construction of the plant. The acceptance of the fact of such assertion is not based on any claim made by any interested party, indeed a prominent, well informed business citizen of Dallas, Texas, the home of the nearest competitor of Ada's big plant, made this statement the other night while engaged with other gentlemen in the lobby of the principal hotel of the Texas metropolis. It was gratifying to the editor of the News who was a participant in the little conversation in which this flattering compliment to our cement plant was uttered to witness such a boost for home.

Aside from the confidence in the relation's assertion that the Ada plant affords the finest cement, there is practical showing which would readily adduce such inclusion, for it is true that the Ada plant during the past eight months of most notable and distressing business depression, especially in all construction lines, has found a ready and grateful market for all its product. On the first day of January, the Oklahoma Portland shipped its first carload of cement. Since that time orders have come as rapidly as could be filled.

Suggestive of the vast good resulting to the country at large on account of this manufacture, in addition to the incalculable benefit derived to Ada, is the fact that since the establishment of the Ada plant, cement has been reduced nearly 100 per cent in price. It is said that the Oklahoma Portland Cement Company paid about \$2.50 per barrel for 5,000 barrels of cement used by it in constructing its plant, when now it is selling a superior quality of cement at, I believe, \$1.25 per barrel.

Dallas, Texas, considers its cement about the biggest factor in its development there around, yet the Texas plant has no greater equipment nor manufactures such superior product as does the Ada plant. Of course Ada is proud of its cement manufacture.

Young People's Party.

One of the most delightful socials of the season, was the young people's party this week at the residence of Mr. and Mrs. J. B. Ingram, at which a large number were present and who had a most enjoyable time.

Misses Elizabeth Ingram and Kathleen Smith were the young hostesses and they proved themselves most entertaining and charming in making the evening a pleasant one for their guests.

WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. Y. Littlefield, living on W. 16th St., Ada, Ok., says: "I procured Doan's Kidney Pills at G. M. Ramsey's drug store, and found most prompt and genuine relief from an aching through the small of my back that had caused me much misery for a long time. Doan's Kidney Pills not only relieved the distressing symptoms of kidney disorder, and corrected the too frequent action of the kidneys, but also caused the burning sensation that had accompanied the passages of the secretions to completely disappear. I am only too glad to recommend Doan's Kidney Pills to other sufferers of kidney complaint as they proved of more benefit to me than any remedy I had previously used."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

ORGANIZE CAMPAIGN CLUBS

W. J. Bryan Thinks That this Thorough Organization will Bring Success.

Chicago, Ill., Aug. 14.—A call for the organization of Democratic clubs in every voting precinct of the United States to aid in Mr. Bryan's campaign was issued today by the Democratic National Committee. Mr. Bryan, it is understood, informed Chairman Mack and other members of the committee that he believed that the Democratic cause would derive its greatest impetus from the formation of these clubs throughout the country.

Asserting that the Republican party intends to rely on favor-seeking interests, the call for club organization says:

"All patriotic citizens, irrespective of party, who stand for the rule of the people and are against corrupt or undue influence of money in election and to that end favor publicity of the larger campaign contributions before he election as demanded by the Democratic platform are urged to organize themselves into campaign clubs for the presidential election."

"All organizations in sympathy with us are asked to assist actively in this work. The chairman of the Democratic State committee in each State is requested to have each county and precinct committeeman organize a campaign club in each precinct on or before the 15th day of September and to call meetings immediately for that purpose. All existing organizations would meet at once and appoint campaign committees."

"The names and addresses of all campaign organizations, their officers and committeemen should be sent to John W. Tomlinson, chairman of the committee on club organization, Democratic headquarters, Chicago, Ill., so that certificates of indorsement, literature, etc., may be sent. No special form of organization or by-laws is necessary."

JEFF STOUT ACQUITTED OF CHARGE OF MURDER

The examining trial of Jeff Stout consumed a good portion of Friday, and a number of witnesses were examined.

Chas. Porter a son of the deceased Joe Porter, testified that he and his father went by Stout's house to get some whiskey, and on their way to the ice cream supper they met Jeff Stout, but there was no quarrel. They stayed at the supper some time and returned to Stout's house. His father was at the window talking to Minnie Porter, wife of Ben Porter a brother of Joe. He stated that while they were talking he heard some one coming down the road, and he started toward the party approaching, and when he had gotten a few steps he heard his father say: "Jeff, I am shot." The witness then went to his father and caught hold of him whereupon the second shot was fired from the porch. This took effect in witness's hand. (He appeared on the witness stand with his arm in sling.) The witness ran and went around the house in the direction of the spring, and when he reached this point he heard another shot.

Witness stated that after the shooting, Jeff Stout told him that the reason he killed Joe Porter, was that he had heard that Joe had said that he was going to kill him (Jeff Stout) his wife and his children.

Sheriff Smith testified that Porter was shot in hand, arm, in the left side just above waist-band and under breast bone with a shot-gun and on the right side of stomach with either pistol or Winchester. He stated that Porter was lying with pistol in right hand loaded all round.

Other witnesses swore that Porter was drinking at the ice cream supper, and that he there made several threats against the lives of Stout and others, and also displayed a six-shooter.

After hearing all the evidence bearing on the case, Justice Brown held that in the killing of Porter by Jeff Stout, the offence was justifiable homicide, and therefore would be released.

SAVINGS BANKS AS ADJUNCTS

Guthrie, Ok., Aug. 14.—Among national bankers in Oklahoma the opinion prevails, that few if any of those that complied with the state guaranty law for the protection of depositors will refuse to obey the command of the comptroller of the currency to withdraw, under penalty of having their national charters abrogated for refusal. Fifty-seven national banks in the state are operating under the guaranty law. Most of these were encouraged to comply with the law that they might retain deposits of state funds more than they were by fear of a falling off in deposits by competition with state banks.

These national bankers are reluctant, however, to lose such advantages as the guaranty law gives them. A plan is contemplated whereby conflict with both the comptroller of the currency and the state banking board may be evaded, by using the state guaranty law as an adjunct to national banks. Such national banks as might wish to pursue this plan would apply for a state charter for a savings bank, which would be managed in conjunction with the national bank. Depositors could choose, in the same institution, between the national bank and the state savings bank.

A national banker said recently that he did not believe the plan would be prohibited either the comptroller of the currency or the state banking board, as each bank would be maintained separately from the other. He said that in several eastern state national banks were owners of state savings banks.

BETTER THAN SPANKING

Spanking does not cure children of bed wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubles with urine difficulties by day or night.

OPPOSE TAX ON HOMESTEADS

Kinta, Ok., Aug. 14.—In pursuance of the policy, outlined by the Indians of the Choctaw nation, in convention at Tuskahoma, July 15 and 16, that of resisting the national and state laws providing for the taxation of Indian homesteads, Principle Chief Green McCurtain has issued a proclamation calling upon each Choctaw citizen to donate \$5 toward a fund to be used by attorneys representing a suit against the state of Oklahoma, asking that the state be enjoined from collecting the homestead tax. The attorneys selected are Judge William H. H. Clayton and Judge C. E. Stuart of McAlester. In his proclamation Chief McCurtain says:

"It being the sense of the Tuskahoma meeting that exemption from taxation was a vested right under a contract with the United States government by which we decided to acquire title in severalty, and that once being vested with that right neither congress nor the legislature of the state can defeat it."

"Whereas, in accordance with a resolution unanimously adopted, it was decided that I, with a committee of two citizens whom I should name, proceed to contract with some attorneys, to the end that suit should be instituted against the state of Oklahoma enjoining it from collecting taxes on the lands of the citizens of these nations while the title remains in them, not to exceed twenty-one years, and realizing that the suit would be long drawn out and bitterly contested by the state, it was decided that in order that a sufficient sum be available for this purpose a contribution of \$5 apiece be had against the allotment of each allottee, and that I appoint one or more per-

PAVE MAIN STREET? NO.

(Continued from page 1.)

of the evening, though the Hon. W. G. Broadfoot and Col. John W. Beard were close seconds, the later gentlemen not speaking so long to the question, but in earnestness and oratory. If anything, excelling the talented ex-mayor.

Messrs. Broadfoot and Beard talked as they have a right to talk, being large property owners on Main street and men who have ever been active in the upbuilding of Ada. When Mr. Beard, in his address, had about reached his peroration in referring to the awful condition of the resident streets of Ada in comparison to paved business streets brought down the house by exclaiming, "In the name of somebody, what do you expect to accomplish with a prospector, taking him down a paved business street, only to break his neck by running off some of these death-grIPPING resident streets?"

Hon. Jno. Rindard, an old Ada booster, facetiously remarked, when called on to express himself in regard to street paving, that he really never had time to determine whether he would be against street paving under a full consideration of the proposition but the thing had come to him unawares and pending the time he could know what he was doing and just what the cost and results might be, he preferred to join the protesting crowd.

Mr. F. E. Bowman, manager of the Electric Light Plant, genial neighbor of the News, occupied a very diplomatic position in the discussion of the evening. All his remarks were facetious and were well received.

"Ward McAlester" Thornton, capitalist of northeast Broadway and Main, who always disdains to make a

sions in each county to solicit and collect the same. It is our intention to test this matter through all the courts if necessary, and we feel assured of ultimate success, and to that end we solicit the hearty co-operation of our citizens."

Weak women should read my "Book No. 4 for Women." It tells of Dr. Shoop's Night Cure. Tells how these soothing, healing, antiseptic supporters, bring quick and certain help. The book is free. Address Dr. Shoop, Racine, Wis. G. M. Ramsey.

August time, tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The pain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the "inside nerves" then the stomach, heart, and kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by G. M. Ramsey.

Disagreeable at Home. Lots of men and women who are agreeable with others, get "cranky" at home. Its not disposition, its the liver. If your find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50c per bottle. Sold by G. M. Ramsey.

HURRAH! HURRAH!! Three big ball games—Monday, Tuesday and Wednesday—Ada vs. the Sherman Athletics, who are the champions of north Texas. Remember the time.

speech, gave vent to some very pertinent expressions from his view point, in the nature of repartee during the various discussions.

Col. J. W. Hays stated that he has remonstrated against the street paving ordinance, not on account of his personal objection to pave, but he thought property owners should be allowed to determine the measure of their taxation of such nature.

W. L. Reed, the banker orator, after publicly attaching himself to the anti-paving contingent, went off into an eloquent exposition of Ada's school requirements. Said he, "If we have to sell 7 per cent bonds even, I am in favor of investing in up-to-date school buildings sufficient to take care of the school interests of this town."

After some other more or less desultory remarks pro and con on street paving, the following resolution by Jno. W. Beard prevailed:

"Be it resolved, that in the sense of this meeting that the city council of Ada be recommended immediately to take necessary steps to create a bond issue for the town of Ada sufficient to construct a sewerage system and erect sufficient additional school properties to accommodate the growing needs of this city, and it is further agreed, that it is the sense of this meeting that this city, in its program of public improvements should first establish street grades, construct a sewerage system, build school houses, construct sidewalks and then pave the business streets of Ada." Beard, appeared to be unanimously carried.

A Weakling is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food, the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25c a bottle. Sold by G. M. Ramsey.

IN THE HANDS OF A MOB

Illinois Capitol Citizens Wreak Vengeance on Negroes for Crime of One of Their Number.

Springfield, Ill., Aug. 14.—Springfield is in the hands of a mob of enraged citizens who began last night to wreak vengeance on negro residents for an assault committed yesterday by George Richardson, a negro, on Mrs. Hallam, a white woman.

At 1 o'clock this morning the whole east end of the town burst into flames, the torch having been applied to several negro houses by some of the more desperate mobbers.

The fire companies were helpless to fight the blaze, as the rioters refused to allow the fire apparatus to approach the burning houses.

Outside troops have not yet arrived but are expected momentarily.

Two men are already dead and

probably two score others are injured, mostly negroes. The rabble is sweeping through the streets attacking every negro met. The local militia are on duty and half dozen companies from other cities are rushing here on special trains. Still other companies are ordered to hold themselves in readiness.

Negroes in various parts of town have been attacked by the mob and in two instances the negroes have turned with considerable effect upon their assailants.

George Richardson, the negro who assaulted Mrs. Hallam the wife of a street railway employe today at her home, was removed early in the evening to Bloomington.

TO TEACH MORALS IN PUBLIC SCHOOLS.

Distinctive efforts to be taken in the direction of moral training in the public schools were recommended at the recent annual meeting of the National Education Association in Cleveland. "The forward march of the teachers in this direction is quiet but it is determined," says the editor of the Chicago Interior, "and it is going to bring about the solution of this great problem." Their principle of action is stated by the writer in these words: "Today the teachers say that the next advance in the school life of the country must put conscience-training, decidedly above mind-training." The association voicing this demand is described as "pre-eminently the organ of expression of the common-school teachers of the land," tho it has also "a considerable contingent of university and college men." The paragraphs of its resolution which touch this subject reads as follows.

We earnestly recommend to boards of education, principals, and teachers the continuous training of pupils in morals and in business and professional ethics, to the end that the coming generation of men of affairs may have a well-developed abhorrence of unfair dealing and discrimination.

"The National Education Association wishes to record its approval of the increasing appreciation among educators of the fact that the building of character is the real aim of the schools."

"We hope for such a change of public sentiment as will permit and encourage the reading and study of the English Bible."

"The highest ethical standards of conduct and of speech should be insisted on among teachers."

The further comment of the Interior is in this vein:

"The outspoken declaration herein for the Bible is especially satisfactory. Many church people, apparently with a sort of fetish faith in the bare sound of the words, urge nothing more than a mere daily reading of the Scriptures in the schoolroom. The teachers, with the brighter light of experience to advise them, put no trust in a routine reading, but recognize that if the Bible is to do any good in the schoolroom it must be studied."

"The only uncertain sound in their declaration is the rather pessimistic allusion to the present state of public sentiment, which they tacitly concede to be against such use of the Bible as they would like to introduce into their work. But they should not misconstrue the quality of that feeling."

"It is not an essential opposition to the book itself. The majority of American parents would be personally most happy to have their children receive the sort of instruction from the Bible which the teachers would like to give. But there has been industriously disseminated through the country the idea that any use of the Christian Scriptures in the schools would infringe the rights of conscience of those who do not believe the Bible as a religious book. And the typical American father, wishing above all things to 'play fair,' will rather forego a desired benefit for his own children than to trench upon the liberty and rights of his neighbor."

"This forbearance is most admirable, but it is not altogether intelligent. The introduction of moral teaching into the public schools, with the Bible as at least one recognized

text-book thereof, would, if sincerely managed, not offend the proper principles of religious liberty in the slightest.

"Religion as a personal experience and a personal hope the state can have nothing to do with. But the social morality which covers justice and truth between man and man in the life here present and visible the state has not only the right, but a positive duty to inculcate."

"That the state is bound to uphold that morality through the wording, spirit, and execution of its laws nobody denies. The laws embody the state's ideals of citizenship. It is the simplest and most impregnable logic to hold that the state should not wait until those ideals are violated before bringing them directly to the attention of its citizens. What it intends to maintain as the standard of conduct necessary for a just social order in a stable commonwealth it should duly inform its citizens in advance of any commotion to break those standards."

Without controversy the place for the state to set forth its moral requirements or as most deeply to impress the masses of its people in the common schoolroom, continues the writer with these additional words.

"The state does not teach the wrong of a selfish and evil act primarily because it is a personal sin. The church must deal with that phase of human responsibility. The state's interest arises from the fact that wrong deeds disintegrate society, and right deeds consolidate, protect, and perpetuate society."

As a political organism government has no means of ascertaining that character of the Scriptures. But it is able to take cognizance of the great political fact written all over secular history—that nations which have observed the morality of the Scriptures have been strong nations of persisting vitality and steadfast orderliness.

"The right of the state to teach morals in the public schools, wholly or partly on the basis of Biblical ethics, is at the bottom of the right of self-preservation, because moral nations live."

"Each state ought by statute to define its own right to instruct its public school children in the fundamentals of social morality."

"Any court in the land would uphold such a law. It would not be vulnerable to any charge of infringing religious liberty, because it would plainly stop short of touching religion—it would be limited strictly to the state's own undeniable self-interest. That one great sentence in the ordinance of 1877 would alone be almost sufficient legal authority for it."

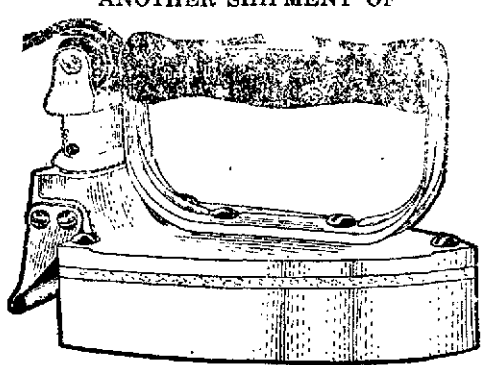

"Religion, morality, and knowledge being necessary for good government, schools and the means of education shall be forever maintained."—Selected.

Wood's Liver Medicine is for the relief of malaria, chills and fever and all ailments resulting from deranged condition of the liver, kidneys and bladder. Wood's Liver Medicine is a tonic to the liver and bowels, relieves sick headache, constipation, stomach, kidney and liver disorders and acts as a gentle laxative. It is the ideal remedy for fatigue and weakness. Its tonic effects on the entire system felt with the first dose. The \$1.00 size contains nearly 2 1-2 times the quantity of the 50c size. In liquid form. Pleasant to take. Sold by Gwin-May & Co.
